TESTIMONIAL

"The Human Design and Gene Keys session I had was both informative and illuminating. I was surprised by how accurately my character and personality traits were portrayed.

The Cacao we drank blended perfectly to establish my intentions and hopes for the session and I felt relaxed and trusting of the process.

Annabelle is a complete professional leaving no stone unturned to give what is needed, and the interactive element meant that we covered thoroughly the aspects that arose where I desired more clarity.

I have found since a certain peace in knowing why I do the things I do and am looking forward to understanding more about myself, making decisions from a place of knowing and beginning a deeper journey of discovery and growth." - Karen

TESTIMONIAL

'I knew very little about human design when I went to Annabelle, apart from the first paragraph information of what it was to be a projector. I'll admit I didn't like what I read and couldn't relate it to myself. I chose to invest in a cacao ceremony with a bluerint reading with Annabelle as I have worked with her many times before on her retreats, cacao, Kambo ceremonies, and on a couples day with my partner. So I already knew that every penny invested in her is so worth it. It's been truly life changing work.

And the reading elevated things even more.

Annabelle created such safe space, her intuition is incredible. Her love and warmth alongside her grounded presence and honesty is incredibly powerful.

I was worried that the information might be generic or that I still wouldn't be able to relate to it (or that I'd be triggered by it), but Annabelle took bespoke to a whole new level and I learnt more in those few hours together about myself than I have in decades.

So much clicked into place about what I need, how I work and I had some huge perspective shifts that I'm still integrating now. I've invested in a lot of mentors over the years and Annabelle is one of those special people that ignites real, powerful, lasting insight and change in you in the most safe yet empowering way. **If you're curious about having a human design reading with her I encourage you to jump in with both feet. It's truly life changing.'**
